Set C 2x

2x Ball Cam Anchor

2x Self Tightening Connector

2x Triangle ball anchors

4 x Tri-glide Sliders

2x 6m Sling webbing

D 1x 3m Cross webbing

FIXINGS NOT INCLUDED. We recommend to take your LIFTnSTORE parts to your local supplier and purchase quality fixings to suit the bracket sets

INITIAL ASSEMBLY OF SET C

6m WEBBING - END 1

1. Unroll 1x 6m webbing & choose one end
2. Thread Slide webbing through bottom slot of Self Tightening Connector
3. Then hold Ball Cam Anchor by the ball and with teeth facing you slide webbing through bottom slot, then back through top slot
4. Then slide both Self Tightening Connector & Ball cam Anchor to the center of webbing

Scan QR for video

6m WEBBING - END 2

1. Thread through both slots of Tri-glide sliders on to end 2 of the webbing making sure webbing goes over top of raised center of Tri-glide
2. Thread webbing through slot of triangle ball anchors
3. Then thread webbing back through Tri-glide slider for second time & pull slider tight to triangle Ball Anchor

Repeat for second set

AKUNA QUICKFIT LIFTnSTORE™

Designed for use on wall and ceiling with permanent fittings for each so you can easily switch from wall to ceiling storage quickly

INSTALLATION

1. For Wall Mount A – Join 1x wall bracket set together and screw on wall
2. For Ceiling Mount B – Join 1x ceiling bracket set together and screw on ceiling / rafter
3. Measure required distance **3ft from each end** and screw up second bracket A or B
4. Engage Ball Cam Anchors from set C into wall or ceiling fitting
5. Attach tie D to connector C and secure with Tri- glide sliders and take up slack
6. Tie Cord E to ball cam anchor & loop over lug on ceiling bracket & tie grip to other end
7. Make sling opening to required size and adjust connector C height
8. Trim excess webbing as required
